

Metastorm BPM® v9 Readiness Assessment & Upgrade Roadmap

With improvements in process design, collaboration, integration, governance, reporting, and performance, upgrading to Metastorm BPM® v9 should be a priority to any organization that has implemented Metastorm BPM. When planning your upgrade to Metastorm BPM v9, here are some important questions to ask:

- What kind of personnel resources will be required?
- What infrastructure changes (hardware and software) need to be considered?
- How can the disruption to the business be minimized or eliminated?

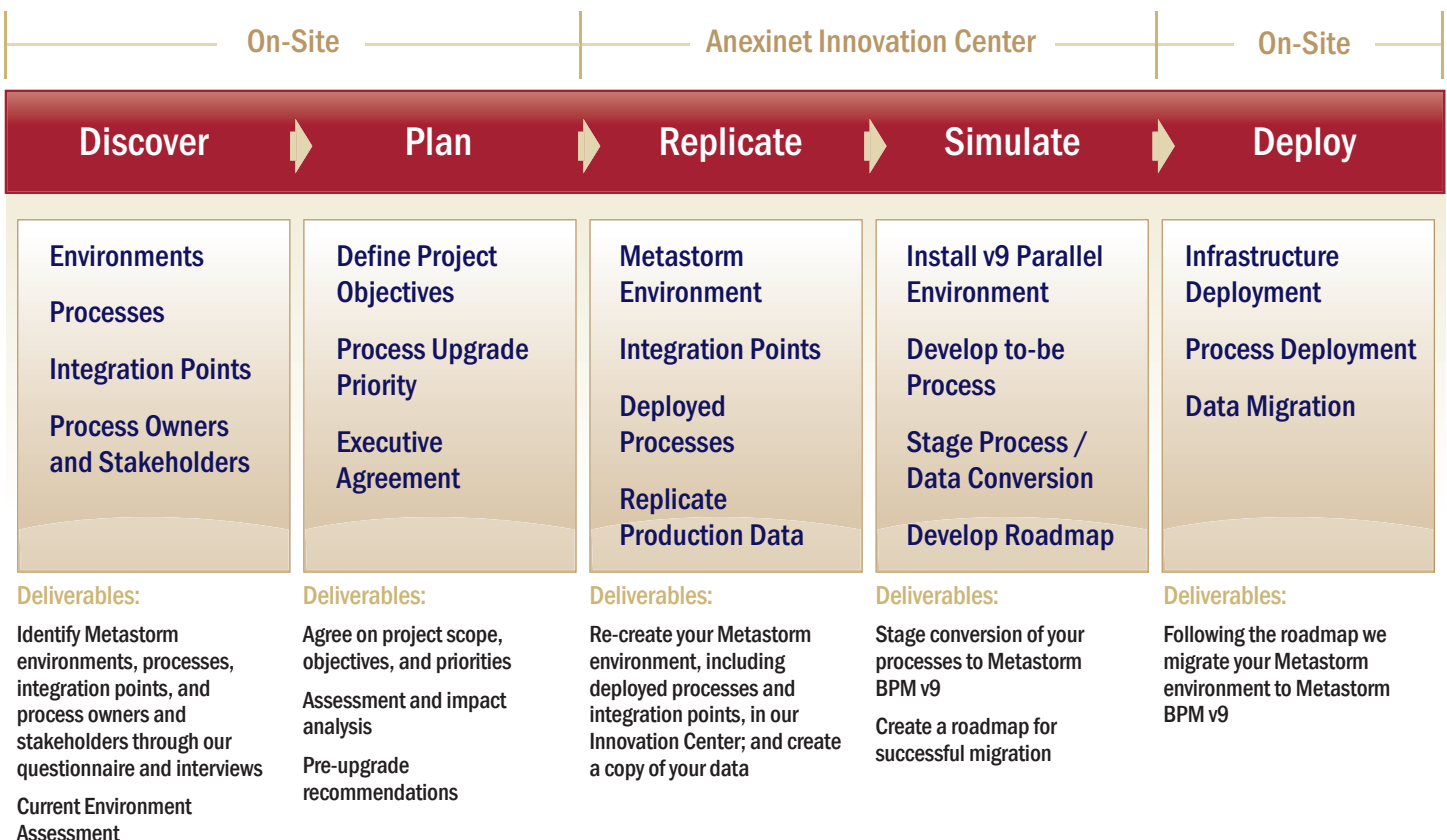

Business Outcomes

With Anexinet, you will be able to:

- Plan your upgrade to Metastorm BPM v9 with minimal impact to your business.
- Take advantage of new Metastorm BPM v9 features and functionality.
- Understand the scope, cost, and timeline that the upgrade will require.
- Identify infrastructure and personnel resources necessary for seamless transition.

Proven and Pragmatic Approach with Tangible Deliverables

In every client engagement, Anexinet seeks clear understanding of needs, open communication of competencies, and a best-fit solution strategically planned and implemented through unrestrained collaboration and partnership. Project progress is tracked with real-time visibility, collaboration, and control from project inception through closure. Utilize Anexinet's Innovation Center resources to prepare and simulate your conversion to Metastorm BPM v9 with no impact to your infrastructure or business.
