

# Innovation Center

## Alignment of converged infrastructure technology addresses real business needs.

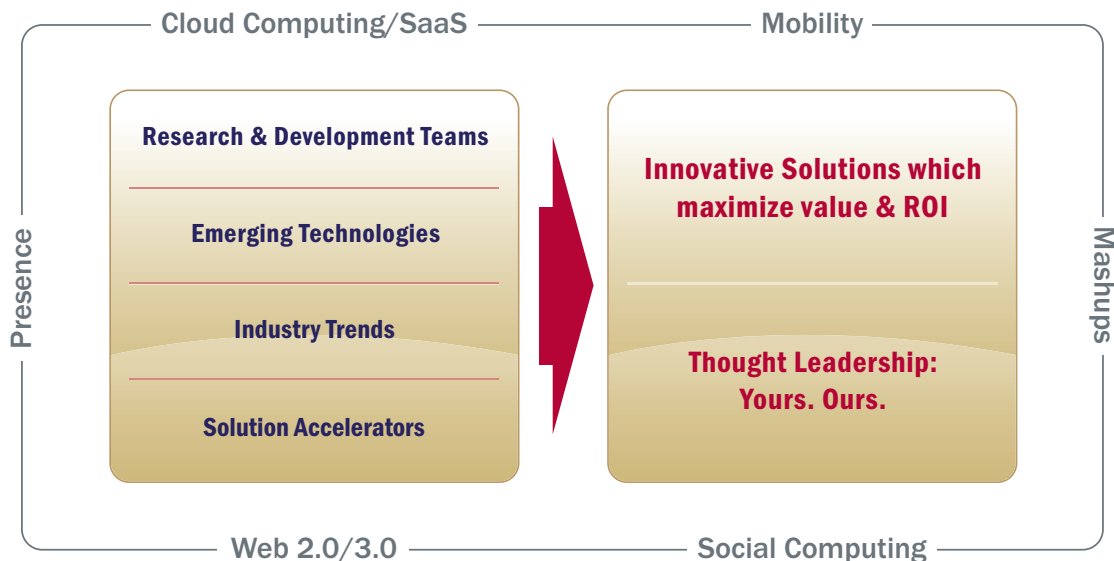

Anexinet's Innovation Center offers a collaborative forum for thought leadership centered on emerging technologies and industry trends. Our focus areas include Virtualization, Cloud Services, Mobility, and Social Computing. By using the latest technologies, virtual platforms and infrastructures, Anexinet helps clients lead the way to innovation by reducing cost, mitigating risk, and improving management and operational efficiency.

### Features

- **Collaborative research and development teams** can evaluate emerging technologies and industry trends.
- **Solutions accelerators** maximize client value and provide a faster, more substantial return on investment.
- **A remote and secure environment** allows clients to test the latest technology from various technology providers such as HP, VMware, Cisco, Microsoft, EMC, and Oracle.

### Organizational Benefits

- Enhance experimentation and collaboration for developing technology and “breakthrough projects”
- Focus on new market opportunities and offerings
- Reduce initial expenses and focus on financial objectives
- Develop internal talent for innovation in key areas
- Access “capacity on demand” for projects that have potential business value
- Leverage existing efforts and evaluate quality initiatives early in the process

### Location:

4 Sentry Parkway East  
Suite 300  
Blue Bell, PA 19422
