

Automated Enterprise Project Management approach provides real-time visibility, collaboration, and control—from solution planning to delivery.

## Program Management Office Solutions for Enterprise Project Management

### Delivering Real Value

“As a result of Anexinet’s solution, our fund administrators have been able to double the number of funds they support. This provides us with a real competitive edge.”

– VP, Mutual Fund Administration  
SEI Investments

“Without Anexinet’s expertise and efficiency, our hardware, software and other expenses were estimated to go well over \$1 million. We spent only about 25% of that amount. That’s what I call ROI.”

– CIO  
SPX Corporation

“No other firm we engaged has been able to deliver such a significant project on-time, on-budget and on-the-mark. Anexinet is superb at targeting your specific needs and tailoring a solution to meet those needs.”

– Manager, Infrastructure  
Rohm & Haas

“Anexinet really listened to our need. Their people were true professionals - they communicated every step of the way and left us with a stronger internal team.”

– VP, Information Technology  
Exelon Power Team

### Solve Business Challenges of Software Implementations.

Billions of dollars annually in the U.S. alone are wasted on time and cost overruns, project creep, and implementations that fall short of expectations. Executives are under pressure to deliver better products and services at lower prices to customers. Increasingly competitive markets drive needs to enhance operations using new technology that will improve visibility into critical business information, integrate systems, and provide real-time reporting for better decision making across the enterprise.

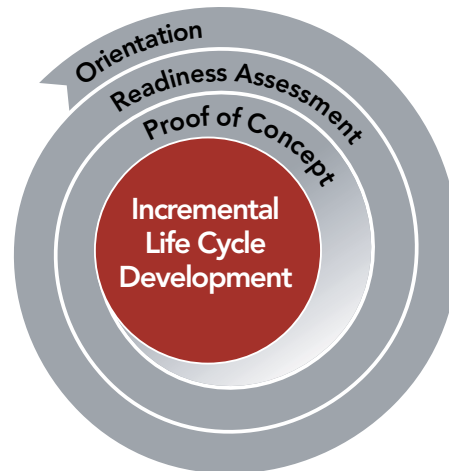

To ensure the success of solutions delivery and clients' expected results, Anexinet manages all projects through its dedicated Program Management Office (PMO). The Anexinet PMO, built on the Project Management Institute (PMI®) framework, leverages Microsoft® Project Server for Enterprise Project Management, enabling centralized, consolidated, real-time visibility and control to keep projects on track, in budget and aligned with client's strategic objectives.

### Anexinet PMO Adopters:

- Reduce project risk and cost
- Manage projects as a collective portfolio for better decision-making
- Improve collaboration and knowledge sharing between business and technology areas
- Eliminate redundant tasks on multiple projects
- Optimize resources across the organization
- Increase participation and value for all stakeholders

### Anexinet PMO Approach

Elements of Anexinet's approach include:

### Utilizing Other Innovations

Through the PMO, Anexinet delivers solutions utilizing other value-driven innovations that further define our thought leadership in project management, including:

- **S.A.F.E-T™ Software Delivery Model**—based on PMI standards, incremental lifecycle development and 20 years of best practices experience.
- **Near-Site™ Development Centers**—solutions development and testing without disrupting your current business operations.
- **Software Partner Best Practices**—integrate the thought leadership of leading product manufacturers with your own project management and business methodologies.
- **PMP®/PMI®-Certified Consultants**—trained, experienced, tested project managers held to the highest professional standards.

**Where Leading Edge  
Technology Meets  
Competitive Advantage**

Anexinet, a premier solutions integrator applies leading-edge technology to complex business challenges to simplify business processes, strengthen IT organizations and provide competitive advantage.

Anexinet offers application development, integration, business intelligence, technology infrastructure and enterprise program management (EPM) services to mid-size and Fortune 1000 companies, associations and government agencies.

Anexinet's experienced consultants ensure the success of clients' solutions through the company's Program Management Office (PMO), a pragmatic approach that combines industry best practices experience with the company's innovative S.A.F.E.-T<sup>2</sup>™ software delivery model. S.A.F.E.-T<sup>2</sup> is a project execution strategy and trademark approach based on the Project Management Institute (PMI®) methodology and Incremental Life Cycle Development standards.

Anexinet Near-Site™ Development Centers enable project teams to design, develop and test client solutions within minutes of a client's location, and without disrupting current systems and organization.

Headquartered in Philadelphia, Pa., Anexinet has regional offices throughout the Delaware Valley and metropolitan New York City and Washington, D.C. areas.

**Proven and Pragmatic Approach with Tangible Deliverables**

In every client engagement, Anexinet seeks clear understanding of needs, open communication of competencies, and a best-fit solution strategically planned and implemented through unfettered collaboration and partnership. Overall, elements of Anexinet's approach include:

Project Elements	Project Deliverables
<b>Orientation</b>	<ul style="list-style-type: none"> <li>Engagement Kick-off</li> <li>Bring Business and IT groups to a level playing field</li> <li>Clarity of PMO and implementation process</li> <li>PMO Deliverables discussed and mutually planned</li> </ul>
<b>Readiness Assessment</b>	<ul style="list-style-type: none"> <li>Consultative analysis of environment</li> <li>Assess PMO already established or planned</li> <li>Develop strategy to introduce efforts and optimize cost/benefit of PMO</li> </ul>
<b>Proof of Concept</b>	<ul style="list-style-type: none"> <li>Identify project schedule</li> <li>Implement prototype</li> <li>Clarity of goals and objectives</li> <li>Track and monitor progress</li> </ul>
<b>Incremental Life Cycle Development</b>	<ul style="list-style-type: none"> <li>Establish internal Program Management Office</li> <li>Establish production environment</li> <li>Identify next set of projects or portfolio</li> <li>Load projects or portfolio into project management environment</li> <li>Train appropriate IT and business stakeholders</li> <li>Incrementally add portfolios with corresponding training</li> </ul>

With Anexinet, your organization can establish its own PMO to address both immediate needs and future projects. Your in-house organization gains a systemic approach to achieving strategic initiatives, operational improvements, business process re-engineering, and new software development. Powerful enterprise project management capabilities enable your people, processes and technology to stay competitive and at the forefront of evolving business requirements.
